

## GreenLawnger® Sand Colorants Specifications and Color Options

GreenLawnger sand concentrate has a performance-engineered formula that adheres color to the sand, providing flawless greens while planted vegetation grows and completes the finished look. The Colorbiotics GreenLawnger formula is safe to use with grass seed and pre-germinated grass seed and does not harm existing grass plants.

Bright Green

Dark Green

Avocado

Green

Four natural hues provide multiple options to complement vegetation. GreenLawnger sand concentrate is packaged in disposable 30 gallon drums or returnable 250 gallon totes for easier transportation. GreenLawnger is your ace in golf course care.
